On the inside of the cover of the Norwegian version of the song, it says the following translation:

Track 11 - "Min egen stjerne" (My own star, but I use the title "My morning Star")

Dedicated to my wife Vera, who is (without bragging) a singer, who knows all about voice control.

But as we know, it often takes coincidences to become a star.

The norwegian version is track 11 on the CD "Går det an? Vol.1" which was released in 2010.
