DANCE TILL THE SUN GOES DOWN

(Music & Lyrics: Robert Birkeland©2012)

(guitar-intro)

(1.verse:)

Look how I move, you got the notion , And feel the groove, with some emotion
Watch my steps, here on the dance floor, You got it right, I show you some more
Do like I do, or do it your way, You're such a sight, Whatever they say
Stars shining in your hair , Something is in the air

(Refrain:)

All that I wanna see, Is right in front of me, Dance, till the sun goes down,
Standing there bright and tall, Easily could I fall,
In the state I'm in, I can always win
In all my dreams we will be forever, So you will leave me never
I saw you in a fantasy, It's you I'm thinking of, And I can't get enough

(2.verse:)

I must admit, lost my concentration, I was lost, in my relaxation
Now I'm back, faster than a blizzard, Could it be that, I'm some kind of wizard
Take my hand, let's get some move on, Turn me around, you're such a good one
Everything feels so right, Dancing into the night

(Refrain:)

All that I wanna see, Is right in front of me, Dance, till the sun goes down,
Standing there bright and tall, Easily could I fall,
In the state I'm in, I can always win
In all my dreams we will be forever, So you will leave me never
I saw you in a fantasy, It's you I'm thinking of, And I can't get enough

(B-part:)

Yes it's so funny, When you're here, it's always sunny
Turn around, and you will see that, In this world is where we'll be
All these feelings inside me, No time for no regrets
Looks like my future's set, It's very clear to see, to see for me

(3.verse:)

Look how I move, it's so easy. And feel the groove, oh how you please me
Watch my steps, I'm right beside you,, You got it right, whatever you do
Do like I do, and now it's our way, We're such a sight, Now that's what I say
Stars shining in your hair. Something is in the air

(Refrain:)

All that I wanna see, Is right in front of me, Dance, till the sun goes down,
Standing there bright and tall, Easily could I fall,
In the state I'm in, I can always win
In all my dreams we will be forever, So you will leave me never
I saw you in a fantasy, It's you I'm thinking of, And I can't get enough
